

Large Electric Dial Wall Clock

Sold

REF: 376030

Depth: 6 cm (2.4")

Diameter: 63 cm (24.8")

Description

A large electric wall clock originally dating to around 1910. The clock has an ebonised rope twist carved surround, and an 18 inch diameter dial. The original movement would have been driven from a central master clock that controlled all the clocks within the building.
